

Danny Shiojima-Burton

Senior Frontend Engineer

Work Experience

Nomadago, Inc. - Boston, MA, USA (Remote)

Co-Founder, Lead Frontend Engineer - Mar. 2022 - Present

React Native, TypeScript, AWS, Next.js, Tailwind.css, Figma, Contentful

Drove the design, development, and launch of a social network for iOS and Android, which rapidly gained traction globally among digital nomads. Took primary responsibility for architecting and building the React Native application, a Gatsby.js marketing website, and a Next.js business portal. I also led collaborations with outsourced engineers and designers, ensuring alignment with quality standards.

Clever Real Estate, Inc. - St. Louis, Missouri, USA (Remote)

Senior Frontend Engineer - Apr. 2022 - Oct. 2023

Frontend Engineer - Jan. 2021 - Apr. 2022

React.js, Gatsby.js, ES6+, TypeScript, Tailwind.css, AWS, Cosmic.js

Developed features for digital products in the real estate industry. Key engineer responsible for building and maintaining SaaS products used by thousands of real estate professionals across the United States. Architected a component library in React and TypeScript, deploying it to projects across the organization via NPM. Refactored architecture of Clever's website to optimize page speed and core web vitals, which led to sustained increases in traffic and revenue.

Pixel Union, Ltd. - Victoria, BC, Canada (Remote)

Front-End Developer - Oct. 2019 - Jan. 2021

Shopify, ES6+, React.js, Gatsby.js, Node.js, Ruby, NPM, GitHub, Slack

Crafted best-in-class e-commerce experiences on the Shopify Plus platform. Collaborated with both internal and external stakeholders to ideate and build storefronts for some of Shopify's highest revenue merchants, generating \$1M+ annually. Took the lead in developing and refining internal tools and build processes, all aimed at streamlining and optimizing our organization's developer experience.

Convertus Digital, Inc. - Vancouver, BC, Canada

Senior Front-End Development Specialist - Feb. 2019 - Oct. 2019

Front-End Development Specialist - Nov. 2018 - Feb. 2019

Junior Development Specialist - May 2018 - Nov. 2018

Web Development Intern - Mar. 2018 - May 2018

WordPress, PHP, Sass, ES6+, Vue.js, Webpack, Bitbucket, Jira, Slack

Contributed to the full development cycle of a WordPress multi-site platform, powering over 1,500 Canadian car dealership websites. As a contributor, I built bespoke themes for Convertus clients, as well as championed the development of a themeable widget library. In my senior role, I led a team of developers and designers to create custom themes, widgets and plugins for Canada's largest automotive dealership groups. I managed project scopes, assigned tasks, reviewed pull requests, and maintained team performance standards.

Education

British Columbia Institute of Technology

Diploma, Digital Design & Development - Sep. 2016 - May. 2018

Graduated with honours

Elected Class President to represent peers with program faculty

Peter Campin Memorial Award for academic achievement and leadership
